GLASGOW CITY COUNCIL – AREA COMMITTEES

DOES YOUR ORGANISATION NEED FUNDING? – WE CAN HELP

Are you a local community or voluntary organisation?

Do you need funding to help enhance your activities?

If you answered yes to both these questions then Glasgow City Council Area Committees could help. To find out how read on.

Area Committees provide a structure for local decision-making within Glasgow City Council that deal with council services at a local level. There are 21 Area Committees covering Glasgow, of which 7 are within the North West Area. These cover the council multi-member wards Anderston City, Hillhead, Partick West, Garscadden/Scotstounhill, Maryhill/Kelvin, Canal and Drumchapel/Annie'sland. They meet on a six weekly cycle, have local community input and your local elected councillors are members of the area committee covering the area in which you live.

The role of the Committees is to ensure that council services reflect the needs of the areas they serve.

Who can Apply - constituted community and voluntary groups

What can funding be used for - assistance to help improve current activities or to develop new ones.

What can be applied for – New Equipment, Fun Day Activities, Bus Hire for day trips, Arts / Dance Programmes, Educational

activities, environmental projects amongst many others, call us to discuss your ideas or activity

What cannot be funded – Items for personal use, ongoing running costs such as staffing, utility bills, vehicles or maintenance etc

Fuller information is provided in the Area Committee Funding Proposal Guidance Notes. If in doubt contact the Team on the number below.

Many community groups in the North West have benefited from Area Committee funding so if your organisation needs new equipment, if you're planning a day trip or if you want to organise some other activities for your community then applications for grants can be obtained from

www.glasgow.gov.uk/en/YourCouncil/Council_Committees/AreaCommittees/applicationformsandguidance.htm
